POP DOWN WASTE

about us

Designed in Australia, Bounty Brassware floor grates are manufactured to exacting Australian standards using the latest computer controlled casting processes. As a result, we are able to deliver products of the highest quality that integrate beautifully into any bathroom.

The Bounty Brassware range includes our unique and stylish Bermuda range, the Bounty Classic collection, the superior quality and durability SS316 range and our new Square on Square wastes.

If your project is deserving of the ultimate finishing touch, then remember: Bounty Brassware is truly world class!

INTELLECTUAL PROPERTY

Many of our products are protected by their own registered designs, both in Australia and in foreign jurisdictions.

Our tile insert concept has very broad protection in Australia under the granted patent number **AU.2007203019** which does not expire until 2021.

Whilst the patent remains in force, we regard any copies of the tile insert concept to infringe and will take appropriate action as deemed under the licence.

BERMUDA

The flagship of the Bounty Brassware range, the Bermuda floor grate system is a simplistically discreet solution for any bathroom or wet area. Bermuda cleverly incorporates the selected floor tiles (or a feature tile) to blend beautifully with any environment. Water simply disappears from your bathroom / shower floor.

The broad range of Bermuda products ensures that there is a stylish option to compliment your new bathroom. The clever designs make for easy installation.

Standard finish is Chrome, with additional finishes* available upon request:

*Not applicable to the Bermuda Channel.

BERMUDA STANDARD

The standard Bermuda Floor Grate offers a choice of decorating options! The centre tile recess allows a coordinated tile to be at one with the surrounding floor tiles, in effect disappearing into the overall décor. Alternatively use the centre tile recess to highlight a feature tile or contrasting tile for a spectacular effect. Either way, water will simply and stylishly disappear in front of your very eyes.

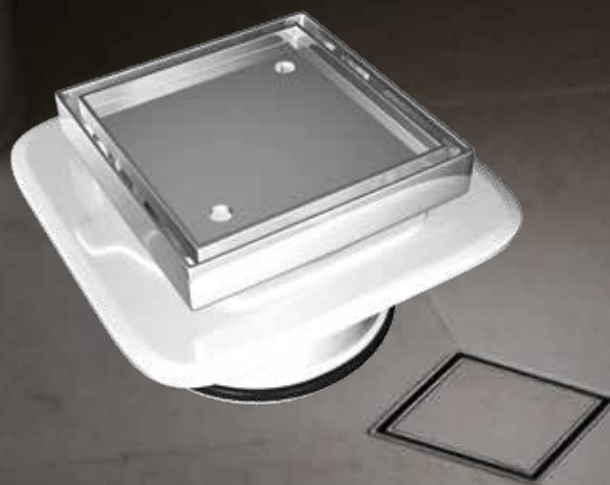

Available in 100mm and 80mm connection size, and also with 150mm x 150mm face dimension, each standard Bermuda Floor Grates comes with a stainless strainer.

BERMUDA MEGA

While offering the same exciting decorating options as the standard Bermuda Floor Grate, the Bermuda Mega Floor Grate adds our industry leading Megaflex leak control flange and undercap mortar exclusion device to complement the superior quality and aesthetics of the standard Bermuda Floor Grate, creating a total solution for your project.

The Bermuda Mega floor grates are available in 3 different shapes; square, round and triangle. The square model is available as a 100mm x 100mm or 150mm x 150mm.

BERMUDA FLIPPER

Building on the options of the standard Bermuda Floor Grate, the Bermuda Flipper with its flippable tile insert adds another level of decorating freedom, making it even easier to create either a coordinated look or a stylish contrasting effect.

BERMUDA LEAK CONTROL

Sharing the same body and face dimension of the 100mm x 100mm Bermuda Mega and the New Round Bermuda Floor Grate, the Bermuda Leak Control Flange incorporate our innovative waterproofing technology; the Leak Control Flange.

Available to fit the 80mm or 50mm leak control flange.

BERMUDA CHANNEL & CHANNEL WITH GRATE

The Bounty Bermuda Channel Floor Grate range offers clean lines and superior durability that only 316 stainless steel can deliver. Incorporating our industry leading Megaflex leak control flange, it ensures a total solution for your project. Perfect installation is no longer impossible with the adjustability of height and tilt, while enabling positive engagement with your waterproof membrane for total peace of mind.

Fully customisable – the Bounty Bermuda Channel Floor Grate can be made to any size your project requires, and also comes in standard lengths of 300mm, 600mm, 900mm and 1200mm at a width of 100mm.

POP DOWN WASTE

LOOKS BETTER. *IS BETTER!*

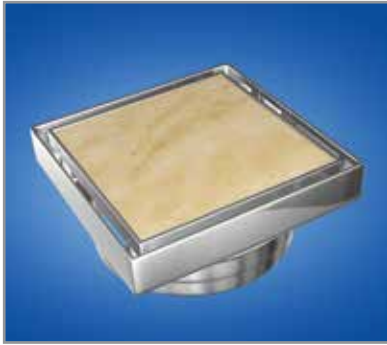

- **At Last** – a quick close waste that is approved for basins and baths giving you a consistent look throughout your bathroom.
- **Looks Fantastic** - Sits flush in the most commonly used 'open position' for a superior aesthetic.
- **Works Brilliantly** – super smooth opening and closing, along with easy to remove cartridge for cleaning and drain access.

Pop Down waste in
closed position

Pop Down waste in
open position

- Suits basins with 32mm or 40mm outlet provision with or without overflow.
- Innovative quick remove cartridge with high tech polymer fins ensures a lifetime of trouble free operation.
- Perfect in baths with no protruding parts to catch fingers and toes.
- Lifetime Replacement Guarantee on cartridge.
- Worldwide Patent Pending.
- Registered Design

SS316

SS316 FLOOR GRATE

The Bounty SS316 Floor Grate range gives the greatest peace of mind of any floor waste available. Made from marine grade 316 Stainless Steel, these grates will not rust, peel or tarnish.

Available in either Round or Square, sizes include 100mm, 80mm, 80mm x 50mm and 50mm (Australian sizes). Also available, the 100mm and 80mm version with the renowned Mega Flex leak control system.

SQUARE ON SQUARE FLOOR GRATE

The Bounty Square on Square Floor Grate range offers clean lines and superior durability that only 316 stainless steel can deliver. Incorporating our industry leading Megaflex leak control flange and undercap mortar exclusion device, it ensures a total solution for your project. Perfect installation is no longer impossible with the adjustability of height and tilt while enabling positive engagement with your waterproof membrane for total peace of mind.

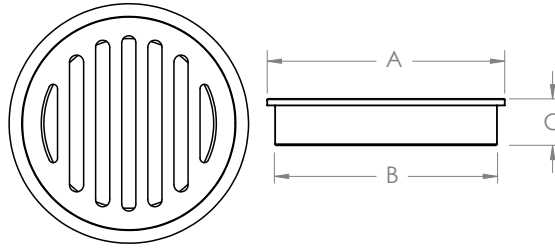

No longer will you be forced to use a round waste in a square body that just does not fit with the design aesthetic of your project. No more square pegs in round holes! The Bounty Square on Square Mega Floor Grate delivers a truly square floor grate.
